

TAKE THE WORK OUT OF BUS BUYING

Ordering in quantity always saves money, even when it comes to buses. Through CIESC's web-based bus purchasing, all school districts can take advantage of group purchasing, regardless of the size of their order.

With Coop Purchasing, you can get a bus that fits your needs and meets the state's requirements. All school bus manufacturers and bus styles are available.

Our bus purchasing software is unlike anything on the market. The dashboard is free to use for any Indiana school district, offering you:
