

Capstone Interactive (eBook) pricing

The standard cost for a Capstone Interactive eBook for one school’s population is a 1-time charge of \$39.99 per eBook. That covers unlimited simultaneous users from home or school. It includes library MARC records. Each school will need to provide library processing specifications in order for us to configure the MARC record for the school library circulation system.

Capstone will offer ESC of Indiana’s member schools a 10% discount on all eBooks ordered (\$35.99)

We also have seasonal offers that may be available, such as a BOGO offer. We will honor the discounted cost of \$35.99 with any seasonal offers that may occur. If the CIESC desires to purchase for multiple schools within its service area, or if a district is purchasing for multiple schools on the same PO, volume discounts may apply, but shall not exceed the 55% discount represented by a BOGO offer applied to the CIESC standard price per title. Quotes must be requested from your account representative for volume or seasonal offer pricing.

Volume discounts.
